What is a food co-op?

A food co-op is a fully functioning grocery store that is member-owned. Members will pay annual dues and will be entitled to reduced prices on products as well as input in business decisions. Non-members are welcome to shop at the co-op, however they will not be entitled to reduced pricing or decision-making.

For childcare, email Kate at katonah@msn.com with the names, number of children and ages by January 6, 2016.

Please bring a canned good for donation to the Community Center of Northern Westchester.
